

# M I M E S I

P O R T A R A S O M U R O

Un segno. O meglio, un disegno. La porta sembra trasformarsi in elemento bidimensionale, pronto a scomparire nell'architettura dello spazio, come a stagliarsi con la sua campitura di colore opaca o addirittura lucida con alcuni RAL. Il battente filomuro si integra perfettamente sulla superficie; le cerniere sono a scomparsa e permettono un'apertura dell'anta di 180°. Stile minimal, funzionalità e libertà di personalizzazione, per la linea Mimesi, disponibile anche per le pareti in cartongesso.

# M I M E S I

F L U S H D O O R

*A sign. Or better, a design. The door seems to turn into a bi-dimensional element, ready to disappear within the architecture of the space, as it blends in with its matt or even glossy colours of some of the RAL. The flush door perfectly integrates on the surface; the hinges are hide-away and allow a 180° opening of the door. Minimal style, functionality and freedom of personalization, for the Mimesi line, also available for plasterboard walls.*
